

# MILPITAS POLICE DEPARTMENT CAMERA REGISTRY

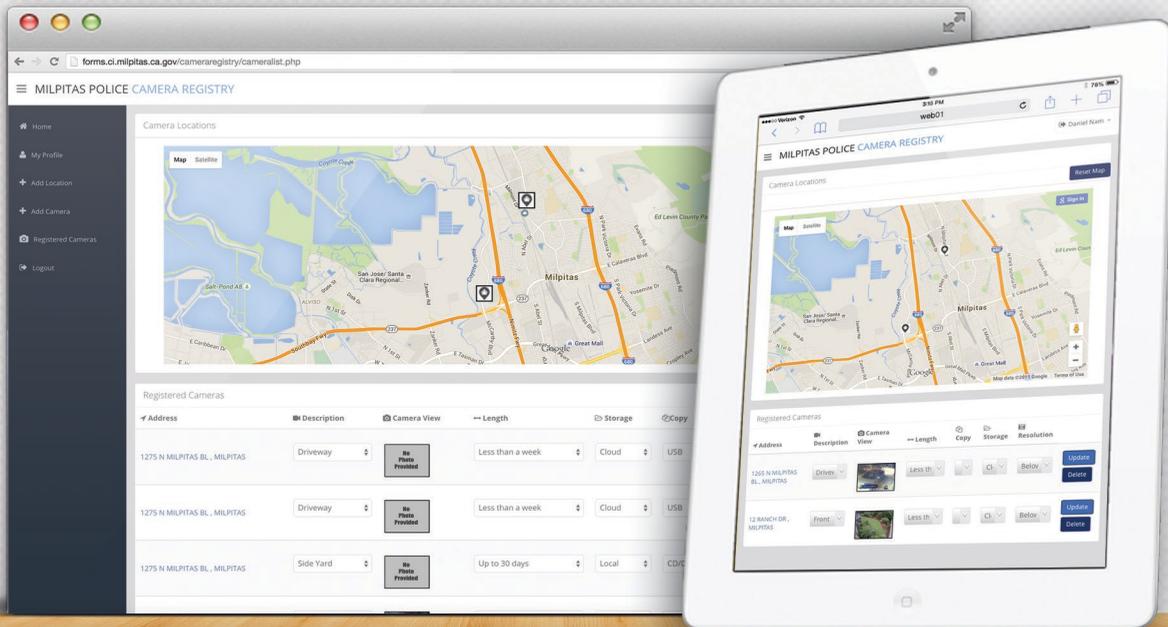

## Safer Neighborhoods

Do you currently utilize video surveillance at your home or business?  
If so, let's work together to keep crime out of our community!

## Help Solve Crime

We are inviting Milpitas residents and business owners to register their privately-owned surveillance camera systems to help solve crime. If you are interested in the program, we would like to hear from you.

## EASY TO USE, FAST SIGN-UP

### How does it work?

The Milpitas Police Department is committed to partnering with residents and business owners to keep our community safe. As crimes occur, the police may be able to use information from footage gathered from security cameras to assist the investigation.

### What are the benefits?

By registering your cameras, the Police Department can quickly assess whether any security cameras are near the vicinity where crimes have occurred. Police officers may then request to view resident's or business owner's camera footage to identify suspects or additional leads.

### Registration

If you would like to register your surveillance camera system, follow the link below from the City of Milpitas website and follow the registration instructions.

\*\*\*The Police Department will not have remote access to your surveillance camera systems. Camera footage is provided to the Police Department solely at the camera owner's discretion.

**REGISTER AT**
